Record Layouts

IL-1346

Tax Year 2006

Introduction to File Specifications and Record Layouts

Introduction

This document outlines the communications procedures, transmission formats, and validation criteria of returns transmitted electronically to the Illinois Department of Revenue (IDOR), and the format of the Acknowledgment (ACK) file transmitted from IDOR to electronic filers. The IDOR Electronic Filing Program follows the Internal Revenue Service (IRS) program in all important respects of application, communication, transmission structure, record ID formats, error codes, and testing. If you are familiar with the IRS electronic filing program you already know most of what you need to know to also participate in the IDOR program. All differences between the IDOR program and the IRS program are covered in this document and in the IDOR Procedure for Electronic Filing (IL-1345). You may contact your IRS District Office Electronic Filing Coordinator for IRS Publications 1345 and 1346.

Data Communication

Refer to IDOR's Procedure For Electronic Filing of Individual Income Tax Returns, IL-1345, Part 3, Transmission of the Electronic Return, for instructions and discussion of Data Communication.

We are discontinuing ZMODEM after calendar year 2007. We support file transmissions by HTTPS file transmission protocol. Files are transferred to and from our Gateway server via the Internet using Secure Socket Layer (SSL) technology. See IL-1345 for more information.

Problem Transmission

If a transmission is interrupted during the passage of the ACK files to the transmitter, the transmitter will have to recognize that fact and call again for the ACK file. Most communication software will indicate when a transfer is incomplete. In addition, after successful transmission of an ACK file, the EFS communication processor will send the message, "ACKNOWLEDGMENT FILE TRANSMISSION COMPLETE."
In most cases of a failed acknowledgment transmission, the ACK file will still be present on the communication system and the transmitter can simply call again. If the ACK file is not available for retry, the transmitter should call IDOR for assistance at **217 524-4097** from 8 a.m. until 4 p.m. weekdays with your ETIN.

Unlike the IRS Program, the EFS checks return transmissions for errors only in the acknowledgment process (other than CRC checking during the transfer process). The communication system never intentionally aborts a transmission. Upon successful receipt of a return transmission, the EFS communication processor will send the message, "TRANSFER COMPLETE." plus some other transmission specific messages.

If the "TRANSFER COMPLETE." message is not received, the transmitter should call again, and retransmit the file.

Official FINAL (11/28/2006) with changes made (12/26/06)

Introduction to File Specifications and Record Layouts

**General Description
of File Format**

Include here by reference IRS Publication 1346, Part I, Section 2.01 with the following comment relating to subsection:

.13 The complete tax return must consist of all logical records pertaining to it in the following sequence:

IDOR Return Sequence Order is
    IL-1040, Page 1
    IL-1040, Page 2
    Schedule NR, Page 1
    Schedule NR, Page 2
    Schedule M, Page 1
    Schedule M, Page 2
    Schedule CR, Page 1
    Schedule ED, Page 1
    Form W-2

    Form 1099-R
    Form IL-4562
    Form IL-Payment
*   U.S. 1040, Page 1 (or 1040A, Page 1)
*   U.S. 1040, Page 2 (or 1040A, Page 2)
*   U.S. Schedule B (or Schedule 1)
*   U.S. Statements for U.S. 1040 and
    Schedule B
    Summary

* Change the record sentinels from
    "****" to "!!!!"

Introduction to File Specifications and Record Layouts

**General Description
of File Format**

U.S. forms included in Illinois Electronic Transmissions

When the subtraction on IL-1040, Line 5, Federally Taxed Retirement and Social Security, is greater than zero, the U.S.1040, Pages 1 and 2, or U.S. 1040A, Pages 1 and 2, and any Statement Records that relate to those two records must be transmitted for support. Likewise, when the subtraction on IL-1040, Line 8, U.S. Government Obligations, is over $1,500, U.S. Schedule B, or U.S. Schedule 1, and any Statement Records that relate to those records must be transmitted for support.

Required Federal forms and attachments such as the U.S.1040, U.S. 1040A, U.S. Schedule B, and U.S. Schedule 1 that reference a statement must include any statement record referenced on their respective federal forms. The statements should follow the format for statement records found in the Internal Revenue Service Publication 1346.

These U.S. electronic records must be those that are used in the transmission to the IRS. Their position and order in the transmission is shown on the previous page. The position for these records is to immediately precede the Summary Record. The order is:

> U.S. 1040, Page 1
>
> U.S. 1040, Page 2
>
> U.S. Schedule B
>
> U.S. Statement Records for 1040 and Schedule B

Or, if the U.S. 1040A and Schedule 1 were in the IRS transmission:

> U.S. 1040A, Page 1
>
> U.S. 1040A, Page 2
>
> U.S. Schedule 1
>
> U.S. Statement Records for 1040A and Schedule 1

When IL-1040, Line 5, is used **and Line 8 is not** greater than $1,500, no U.S. Schedule B is to be included in the transmission. Likewise, when IL-1040, Line 8, is greater than $1,500 **and Line 5 is not used**, no U.S. 1040 pages are to be included in the transmission.

The U.S. records must have their record sentinels changed from "****" to "!!!!". Such as

0927****RET   1040...
> to
0927!!!!RET   1040...

This is the **only** alteration that is to be made to the U.S. records. Returns that have U.S. records with "****" sentinels will be rejected.

Introduction to File Specifications and Record Layouts

Fixed and Variable Length Option

Include here by reference IRS Publication 1346, Part I, Section 2.02.

Character Set

The following discloses the various characters that are allowed in electronically filed returns. Generally, the character set used by the IRS electronic filing program will be followed in the Illinois program.

Fixed format transmitters enter blanks for unused and reserved fields; **Variable format** transmitters omit the fields.

For **variable length records** the following data field conventions apply in addition to those required for fixed format:

For unsigned numeric fields, leading zeros may be dropped, except for date and percentage fields.

For signed numeric fields, the leading zeros may be dropped as well as the trailing blank sign character for positive value. For negative values in a gain/loss field, the minus sign ("-") must be present, to the right of the number.

For alphanumeric fields, there cannot be leading blanks. The field should be left-justified. Trailing blanks may be dropped.

For fields defined as having literal values, only the literal value (including embedded blanks) must be supplied.

Allowable Characters in Electronic Returns

Alpha   **A - Z -** Upper case alpha characters only. Literals as shown in the record layouts.

Numeric 0 - 9 - Numeric characters only - right-justified, zero-filled.

Money Fields – 12 characters – 11 numeric followed by negative sign (-), if negative **or** blank, if positive.

Whole dollars only, no cents. When rounding cents, $.50 or greater rounds to the next higher dollar and $.49 or less rounds to the next lower dollar.

When a money field is significant it should be right-justified and zero-filled. When a money field is nonsignificant it should be blank-filled.

No dollar signs, decimal points, or other non- numeric characters are allowed in money fields.

Introduction to File Specifications and Record Layouts

Character Set (cont.)

Percentage Fields, fraction fields, factor fields, and ratio fields are six positions in length. All will be positive, left-justified and zero-filled. Decimals should not be present. The decimal is assumed to be between the left-most and the second left-most position. For example, 10 percent shown in a six character field would be "010000", that is, 0.10000 with the decimal point omitted.

ZIP Codes should be left-justified. If there are only five ZIP numbers, the remaining right-most positions may be either blanks or zero-filled.

Dates – M = Month, D = Day, Y = Year. Enter zeros if date is unknown or not specific.

Other numbers, if present, should be all numeric, right-justified and zero-filled. If not present, the field should contain blanks. In all instances, follow any special cases shown in the record layouts.

Alphanumeric A - Z, 0 - 9, and special characters.

Only the following **special characters** are allowed:

Ampersand (&), Blank (b), Comma (,), Hyphen (-), Percent (%), Plus sign (+), and Slash (/).

The exclamation point (!) is used in U.S. Forms and Schedules only to replace asterisks in the record sentinels.

Some cases for special characters:
Primary Last Name and Primary First Name; A-Z, Hyphen and Blank.
Secondary Last Name and Secondary First Name; A-Z, Hyphen and Blank.
Care of Name; A - Z, 0 - 9, Ampersand, Hyphen, Slash, Percent, and Blank.
Street; A - Z, 0 - 9, Hyphen, Slash, or Blank.
City; A - Z, Blank.
State; A - Z only, no special characters allowed.

When it is necessary to transmit U.S. 1040 or 1040A, U.S. Schedule B or Schedule 1, and any statements that belong to those forms, four exclamation points (!!!!) must be put in place of the four asterisks (∗∗∗∗) in the record sentinel of each of the logical records. See General Description of File Format.

Section 1

Trans Records

Each transmission has as its first two records a TRANA and a TRANB record. These two 120 character fixed length records identify the transmitter, identify the transmission in time and sequence, and disclose the style of the transmission.

Field No.	Identification	Length	Description
TRANS Record "A"			
	Byte Count	4	"0120"
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"TRANAb"
0010	FEIN, SSN or PTIN of Transmitter	9	Alphanumeric, must match TRANB
0020	Transmitter Name	35	Alphanumeric
0030	Type Transmitter	16	Value "PREPARERS AGENT" or "PREPARER"
0040	Processing Site	1	"S" = Springfield
0050	Transmission Date	8	YYYYMMDD
0060	Electronic Transmitter Ident. Number (ETIN)	7	Numeric, ETIN plus use code
0070	Julian Date	3	Numeric day
0080	Transmission Sequence for Julian Date in 0070	2	Numeric
0090	Acknowledgment Transmission Format	1	NO entry
0100	Record Type	1	"F" fixed, "V" variable
0110	Transmitter EFIN	6	Numeric
0120	Reserved	14	Blank
0170	Reserved	1	Blank
0180	Reserved for IDOR use	1	Blank
	Record Terminus Character	1	Value "#"
TRANS Record "B"			
	Byte Count	4	"0120"
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"TRANBb"
0010	FEIN, SSN or PTIN of Transmitter	9	Alphanumeric, must match TRANA
0020	Address	35	Alphanumeric
0030	City, State, Zip	35	Alphanumeric
0040	Area Code, Telephone	10	Numeric
0050	Reserved	16	Blank
	Record Terminus Character	1	Value "#"

Section 2

Tax Return Record

The return file specification represents the IL-1040. The record layout follows the IRS layout. The record is a string of data (separated by delimiters for variable format) that indicate where the data belongs on the return.

Field No.	Identification	Length	Description
	Byte Count, Page 1	4	"0042" plus RSN, DCN, length of data fields and Record Terminus Character
	Start of Record Sentinel	4	"∗∗∗∗"
0000	Record ID	6	"RETbbb"
0001	Return Type	6	"IL1040"
0002	Page Number	5	"PG01b"
0003	Primary Social Security Number	9	Numeric
0004	Reserved	1	Blank
0005	Tax Period	6	YYYYMM
0006	Reserved	1	Blank

Begin bracketing Field Numbers for Page 1 of the Tax Return when using variable format.

0007	Return Sequence Number	16	
	a. ETIN of Transmitter	5	Numeric
	b. Transmitter Use Field	2	Numeric
	c. Julian Day of Transmission	3	Numeric
	d. Transmission Sequence Number	2	Numeric. (00-99)
	e. Sequence Number of each return	4	Numeric. (0000-9999)
0008	Declaration Control Number	14	
	a. First Two Positions	2	Numeric. Value "00"
	b. EFIN of Originator	6	Numeric
	c. Batch Number	3	Numeric. (000-999)
	d. Serial Number	2	Numeric. (00-99)
	e. Year Digit	1	Numeric. Value "**7**"
0010	Data Fields	Various	Page data fields

For variable format transmissions, data is in the form of [dddd]DDDDD . . . where [dddd] represents field sequence number and DDDDD represents data.

The record layout for fixed format transmissions is shown in Section 8**.**

	Record Terminus Character	1	Value "#"

Section 2

Tax Return Record

Field No.	Identification	Length	Description
	Byte Count, Page 2	4	"0042" plus length of data fields and Record Terminus Character
	Start of Record Sentinel	4	"∗∗∗∗"
0000	Record ID	6	"RETbbb"
0001	Return Type	6	"IL1040"
0002	Page Number	5	"PG02b"
0003	Primary Social Security Number	9	Numeric
0004	Reserved	1	Blank
0005	Tax Period	6	YYYYMM
0006	Reserved	1	Blank
0010	Data Fields	Various	Page data fields

For variable format transmissions, data is in the form of [dddd]DDDDD . . . where [dddd] represents field sequence number and DDDDD represents data.

The record layout for fixed format transmissions is shown in Section 8.

	Record Terminus Character	1	Value "#"

Section 3

Schedule Record

The second series of records after the return are the Schedule Records. Each page of a schedule will have a new Schedule Record with the page number incremented. Only one Schedule NR, Schedule M, Schedule CR, and Schedule ED will be allowed. Schedule NR and Schedule M are two page schedules. Schedule CR and Schedule ED are one page schedules.

Field No.	Identification	Length	Description
	Byte Count, Page 1 and Page 2	4	"0042" plus length of data fields and Record Terminus Character
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"SCHbbb"
0001	Schedule Type	6	Alphanumeric (left-justified) "ILNRbb", "ILMbbb", "ILCRbb" or "ILEDbb"
0002	Page Number	5	"PGnnb", nn = 01 or 02
0003	Primary Social Security Number	9	Numeric
0004	Reserved	1	Blank
0005	Schedule Occurrence number	7	Numeric. Value "0000001"
0010	Data Fields	Various	Page data fields

For variable format transmissions, data is in the form of [dddd]DDDDD . . . where [dddd] represents field sequence number and DDDDD represents data.

The record layout for fixed format transmissions is shown in Section 9, 10, 11, and 12.

Record Terminus Character	1	Value "#"

Section 4

Form Record

The third series of records after the return and schedules are the Form Records. They should appear in numeric order by form number.

Field No.	Identification	Length	Description
	Byte Count	4	"0042" plus length of data fields and Record Terminus Character
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"FRMbbb"
0001	Form Number	6	Alphanumeric (left-justified) "W-2bbb", "W-2Gbb", , "1099Rb", "IL4562", or "ILPMTb"
0002	Page Number	5	"PG01b"
0003	Primary Social Security Number	9	Numeric
0004	Reserved	1	Blank
0005	Form Occurrence Number	7	Numeric. Limited to maximum number of forms allowed.
0010	Data Fields	Various	Page data fields

For variable format transmissions, data is in the form of [dddd]DDDDD . . . where [dddd] represents field sequence number and DDDDD represents data.

The record layouts, for fixed format transmissions, are shown in Sections 13, 14, 15, 16, and 17.

	Record Terminus Character	1	Value "#"

Section 5

Summary Record   The Summary Record accompanies each IL-1040. It carries information about the items that are included in the electronic filing.

Field No.	Identification	Length	Description
	Byte Count	4	"0323"
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"SUMbbb"
0001	Reserved	11	Blank
0002	Primary Social Security Number	9	Numeric
0003	Reserved	8	Blank
0010	Electronic Return Originator Name	35	Alphanumeric
0020	EFIN of Originator	6	Numeric
0030	Reserved	6	Blank
0035	Reserved	1	Blank
0040	Number of logical records in return	6	Numeric, including summary **and U.S. records**
0050	Number of Forms W-2	2	Numeric (00-50)
0055	Reserved	**1**	Blank
0060	Number of Forms W-2G	2	Numeric (00-30)
0063	**Reserved**	**2**	**Blank**
0070	Number of Forms 1099-R	2	Numeric (00-20)
0075	Reserved	2	Blank

0100	Reserved	**208**	Blank
	Record Terminus Character	1	Value "#"

Section 6

RECAP Record

Each transmission ends with a RECAP Record. Its format is as follows:

Field No.	Identification	Length	Description
	Byte Count	4	"0120"
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"RECAPb"
0010	Reserved	8	Blank
0020	Total EFT	6	Numeric. (Direct Deposit count only.)
0030	Total Return Count	6	Numeric
0040	Electronic Transmitter Identification Number (ETIN including Transmitter's Use Code)	7	Numeric
0050	Julian Date of Transmission	3	Numeric
0060	Transmission Sequence Number for Julian Date in (0050)	2	Numeric
0070	Reserved	73	Blank
	Record Terminus Character	1	Value "#"

Section 7

Acknowledgment Records

Every transmission will be acknowledged by the return of an ACK file to the transmitter. This ACK file will consist of the TRANA and TRANB records as originally sent by the transmitter, an Acknowledgment Record set for each recognizable return transmitted, and the original RECAP Record with counts of accepted, rejected, and duplicate returns added. The ACK file will be available to be picked up by the transmitter within 24 hours from receipt of returns by the department.

The acknowledgment of an individual return will be an ACK record set. An ACK record set will always have one ACK key record and up to 96 ACK error records associated with it. The ACK key record will contain all of the identifying information for the return it represents, plus a field to indicate how many (if any) ACK error records follow. The ACK error records will contain information that will disclose errors by the Error Form Record ID, Error Form Record Type, Error Form Page Number, Error Form Occurrence Number for multiple occurrences of forms, Error Field Sequence Number and the Error Reject Code describing the specific error.

"R" means the return was rejected for a fatal error; this does not qualify as a filed return. "D" denotes that the return is a duplicate, that is, there has been another electronic return filed in the IDOR Electronic Filing Program this processing year; this does not qualify as a filed return. "A" means the return is accepted and will be processed from that point. This does not imply the return is correct, only that it is processable to the system. **"E" means the Federal return was accepted as an imperfect return. The Taxpayer may or may not need to file an amended IL-1040, (paper 1040X).** "T" means the entire transmission was rejected.

When the transmitter calls, the ACK file is sent before any returns can be transmitted to IDOR. If there is no ACK file to send to the transmitter, a dummy ACK file will be sent. If the transmitter has no returns to transmit, the ACK files may be picked up and the communications session ended at that point. Formats for the ACK Key Record and the ACK Error Record follow.

Note: When a transmission is made in test mode, using the test password, the ACK file will contain a TRANA record that begins with "0120****TESTA " instead of "0120****TRANA ". The TRANB record will likewise begin with "0120****TESTB " instead of "0120****TRANB ". This will make it possible to identify test ACK files.

Section 7

Acknowledgment Records

The format of the **ACK KEY Record** follows.

Field No.	Identification	Length	Description
	Byte Count	4	"0120"
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"ACKbbb"
0005	Reserved	1	Blank
0010	Reserved	1	Blank
0020	Primary Social Security Number	9	Numeric
0030	Return Sequence Number	16	Numeric, ETIN(5) Transmitter's Use Code (2) Julian Date (3) Trans Seq Number (2) Seq Number for Return (4)
0040	Expected Refund or Balance Due	12	Refund field or balance due field from return
0050	Acceptance Code	1	"A" Accepted "R" Rejected "D" Duplicate "T" Transmission rejected **"E" Exception Processing**
0060	Duplicate Code	3	"D" Duplicate DCN or zero "P" Duplicate SSN or zero "S" Duplicate Spouse SSN or zero
0065	Reserved	1	Blank
0070	EFT Code	1	Reserved
0080	Date Accepted	8	YYYYMMDD

0117	Reserved	1	Blank
0118	Reserved	2	Blank
0119	State Only Code	2	"SO" or blank
0120	Reserved	1	Blank
0130	Reserved	2	Blank
	Record Terminus Character	1	Value "#"

Section 7

Acknowledgment Records

The format of the **ACK ERR Record** follows:

Field No.	Identification	Length	Description
	Byte Count	4	"0120"
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"ACKRbb"
0010	Primary Social Security Number	9	Numeric (Must match ACK Record)
0020	Reserved	7	Blank
0030	Error Record Sequence Number	2	Numeric. (01-96)
0040	Error Form Record ID	6	Alphanumeric. Value "RETbbb", "FRMbbb", "SCHbbb", "TRANAb", "TRANBb", "RECAPb", STMbnn", "SUMbbb", "SCHbbB", "SCHbb1"
0050	Error Form Record Type	6	Alphanumeric, IL-1040 = "IL1040" W-2 = "W-2bbb" W-2G = "W-2Gbb" 1099-R = "1099Rb" IL-4562 = "IL4562" IL-Payment = "ILPMTb" Sched NR = "ILNRbb" Sched M = "ILMbbb" Sched CR = "ILCRbb" Sched ED = "ILEDbb" U.S. 1040 = "1040bb" U.S. 1040A = "1040Ab"
0060	Error Form Page Number	5	Value "PG00b"
0070	Error Form Occurrence Number	7	Numeric. (0000001-0000050)
0080	Error Field Sequence Number	4	Numeric
0090	Error Reject Code	4	Numeric
0100	Reserved	55	Blank
	Record Terminus Character	1	Value "#"

Section 7

RECAP Acknowledgment Record

Each ACK file ends with a RECAP Record. It is the same RECAP Record sent with the transmission with the reserved fields containing IDOR information. Its format is as follows:

Field No.	Identification	Length	Description
	Byte Count	4	"0120"
	Start of Record Sentinel	4	"****"
0000	Record ID	6	"RECAPb"
0010	Acknowledgment file name	8	Alphanumeric
0020	Total EFT	6	Numeric
0030	Total Return Count	6	Numeric
0040	Electronic Transmitter Identification Number (ETIN including Transmitter's Use Code)	7	Numeric
0050	Julian Date Of Transmission	3	Numeric
0060	Transmission Sequence Number for Julian Date in (0050)	2	Numeric
0070	Total Returns Accepted	6	Numeric
0080	Total Duplicate Returns	6	Numeric, not included in rejected count below
0090	Total Returns Rejected	6	Numeric
0100	Reserved	6	Blank
0110	IL Computed EFT Count	6	Numeric. (Direct Deposit count only.)
0120	IL Computed Return Count	6	Numeric
0130	Total State-Only Return Count	6	Numeric. (000001 - 999999)
0135	Total Accepted State-Only Returns	6	Numeric. (000001 - 999999)
0137	Reserved	5	Blank
0140	Acknowledgment file name	20	Alphanumeric
	Record Terminus Character	1	Value "#"

Note: Fields 0000 and 0020-0060 are identical to those in the RECAP Record originally transmitted. The other fields have been filled by IDOR.

Please see the IL-1348 for Data Validation and Rejection Criteria

Illinois Federal/State Transmission Development

IL-1040 Federal/State Return Contents

The forms being accepted by Illinois in the federal/state electronic transmission method are the same as those accepted in the independent electronic transmission method:

- IL-1040, Illinois Individual Income Tax Return
- Schedule NR, Nonresident and Part-Year Resident Computation of Illinois Tax
- Schedule M, Other Additions and Subtractions
- Schedule CR, Credit for Tax Paid to Other States
- Schedule ED, Credit for Qualified Education Expense
- Forms W-2, W-2G, and 1099-R withholding statements
- Form IL-4562, Special Depreciation
- Form IL-Payment, Electronic Payment Record
- U.S. Form 1040 (or 1040A), Pages 1 and 2, and its Statement Records necessary for support of IL-1040, Line 5
- U.S. Schedule B (or Schedule 1) and its Statement Records necessary for support of IL-1040, Line 8

The Illinois federal/state electronic transmission method will use the Internal Revenue Service (IRS) generic record (Form 0001) to carry requested data to the IRS. The IRS Unformatted Records (Form 0002) will contain the IL-1040, IL Schedule NR, IL Schedule M, IL Schedule CR, IL Schedule ED, any withholding forms, Form IL-4562, Form IL-Payment, and U.S. return pages necessary for support of IL-1040 line entries.

Specifications Shared Between Federal/State and Independent

Those developers intending to develop for federal/state electronic transmission of Illinois returns should use the following sections of this booklet for guidance and specifications:

- Character Set, Introduction
- Acknowledgment Records, Section 7
- Illinois IL-1040 (record layouts), Section 8
- Illinois Schedule NR (record layouts), Section 9
- Illinois Schedule M (record layouts), Section 10
- Illinois Schedule CR (record layouts), Section 11
- Illinois Schedule ED (record layouts), Section 12
- Illinois Form IL-4562 (record layouts), Section 16
- Illinois Form IL-Payment (record layouts), Section 17

Knowledge of the sections listed above will be essential to the development of a federal/state electronic transmission method. The material in this booklet is presented under the

assumption that the developers understand the IRS Direct Electronic Filing Program of which the Federal/State Electronic Filing Program is a part.

Specifications that relate **only** to the Illinois independent electronic transmission method may be disregarded by federal/state developers. For example, specifications concerning TRANS Record requirements, and Summary Records will not be of concern to federal/state developers because those concepts are not used in the federal/state state packet.

A Word About Standards

The FTA Uniformity Task Force's "Standards and Guidelines for Electronic Filing," dated June 18, 1996, requests that states "clearly identify . . . how their layout differs from the standard." This is the case in the following instances:

- **Name Format Standard**
  Illinois requires that Name Line 1, Name Line 2, and Name Line 3 be formatted as specified in the Generic Record Layout. Illinois now follows the IRS Generic Record name format.

- **Participant Information Standard**
  The Participant Section is not used by Illinois. Participant information is carried on the IL-1040.

- **Unformatted Record Guidelines**
  The IL-1040 and the following Illinois Schedules and Forms, Schedule NR, Illinois Schedule M, Illinois Schedule CR, Illinois Schedule ED, Illinois Form IL-4562, and Illinois Form IL-Payment are to be placed in the Unformatted record. IRS return records and wage form records are carried there. Illinois does not require that "forms should not be split across multiple [Unformatted] records." Illinois requires that schedules and forms not be split at the Header Record. If the schedule or form is split at the Header Record, the return will be rejected.

Return Acknowledgments

Even though some data is checked by the IRS, such as the required fields in the Entity Section of the generic record, data will also be checked by the Illinois Acknowledgment (ACK) system. This data must be edited by the state system to assure the quality of returns received and accepted in the Illinois Electronic Filing Program.

Illinois will edit and acknowledge all returns that pass the IRS edits. The returns will be accepted or rejected by the Illinois ACK system. The ACK records used for the Illinois independent electronic transmission method will also be used for the federal/state electronic transmission method. This Illinois ACK format is similar to that used in the IRS Direct Electronic Filing Program.

Illinois Federal/State Transmission Development

Transmitters are responsible for retrieving ACKs for federal/
state returns by calling the Illinois Department of Revenue
(IDOR) communications processor. Acknowledgements should be
retrieved on a continuous basis (daily, bi-weekly, weekly, *etc.*). Participants
should not assume the IL-1040 is an accepted return based on the
acceptance of the Federal return. Illinois provides a separate
acknowledgement for the IL-1040. The logon consists of the Electronic
Transmitter Identification number (ETIN) in combination with a
password. A test password is given for testing and a production password
is given for live transmission. Refer to the IL-1345, Part 3, for
instructions and discussion of data communication with IDOR's
communications processor.

Reject codes will be the same for federal/state electronically transmitted
returns as for independent electronically transmitted returns in as much
as they refer to the line data that makes up the return. There are some
reject codes that apply only to independent electronic transmissions and
will not be used to reject federal/state electronically transmitted returns.

Use of IRS Generic Record

Illinois has moved the IL-1040 to the Unformatted Record. The layouts
shown on the following pages stipulate how certain IL-1040 return data
should be placed in the IRS Generic Record.

The Total Federal Exempt field, Sequence 0155, in the Consistency Section
must contain the number of exemptions used on the federal return. When
the federal return type is EZ, the total exemptions should be placed in
this field even though this count is not expressed on the EZ form itself.

In the Generic Record Layout that follows, the data field Identifications
are named to relate to the IL-1040 return. The Identification will show
the Illinois Form Field Number (Sequence number) assigned by the
record layouts in Section 8. For example, you will find IRS Generic
Record Sequence number 0055 in the Entity Section to contain the
Spouse SSN [0030]. The Sequence [0030] is the field number of the
Secondary SSN assigned on the IL-1040 record layout, Section 8.

IRS Federal/State Form 0001, Generic Record Layout

Some fields on the IRS Generic Record have no direct counterpart on the Illinois return. All fields necessary are assigned a place somewhere in the IRS Generic Record.

To clearly illustrate the assignments in the previous examples:

IRS Generic Record Field No. & I.D.	=	IL-1040 Layout Field
0055 Secondary SSN [0030]	=	0030 Secondary SSN

Notice that the bracketed sequence numbers in the generic record relate to the field sequence numbers of the state return record layout in Section 8.

Use of IRS Unformatted Record

The unformatted records in the Federal/State Electronic Filing Program will be used to transmit Illinois Schedules, withholding forms, Illinois Forms, and U.S. return pages for support of the IL-1040 line items. This will be in the unformatted record in either fixed or variable format in the following order:

- IL-1040, Page 1 and Page 2, Illinois Individual Income Tax Return in their Illinois Direct Electronic Filing Format

- Illinois Schedules (ILNR, ILM, ILCR, ILED) that support line items on the IL-1040 in their Illinois Direct Electronic Filing Format

- Withholding forms (W-2, W-2G, 1099R) that contain "IL" withholding amounts in their IRS Direct Electronic Filing Format

- IL-4562, Special Depreciation Form to report Illinois depreciation subtraction in their Illinois Direct Electronic Filing Format

- IL-Payment that contains "IL" electronic funds withdrawal information in their Illinois Direct Electronic Filing Format

- U.S. 1040, Page 1 and 2 or U.S. 1040A, Page 1 and 2 contain pertinent information for the Illinois Tax Return in their IRS Direct Electronic Filing Format

- U.S. 1040, Schedule B or U.S. 1040A, Schedule 1 contain pertinent information for the Illinois Tax Return in their IRS Direct Electronic Filing Format

- U.S. Statements that support "STMbnn" on the U.S. 1040, U.S. 1040A, U.S. 1040, Schedule B or U.S. 1040A, Schedule 1 in their IRS Direct Electronic Filing Format

See the Introduction, General Description of File Format, for information explaining U.S. return pages as support for IL-1040, Line 5 and 8.

All records must have "*" converted to "!", and "#" converted to "$" to be included in the Unformatted Records.

IRS Federal/State Form 0001, Generic Record Layout

Testing

After the software developer has completed testing with the IRS, they should contact the Illinois Department of Revenue when they are ready to test with Illinois. You may call us at 217 524-4097 to arrange for the test.

Testing will be done by transmitting all the "dummy" U.S. returns to the IRS Austin Service Center in test mode with the Illinois test cases included. The Illinois test cases are described and defined in IL-1347, Illinois Department of Revenue Electronic Filing Test Package. The U.S. returns that will carry the federal/state Illinois returns must be created by the developer. They may be made up of the minimum U.S. 1040 return data necessary to support the state return and pass the IRS edits.

When all test returns have been accepted by the Illinois federal/state ACK process, call to ask for the test to be examined. At this point approval will be given or changes will be discussed and testing will be resumed.

Online e-Filing

Illinois Personal Identification Number (IL-PIN)

Illinois Department Of Revenue requires an IL-PIN for all Illinois taxpayers participating in "online" e-Filing. Unlike the Federal self-select pin program, Illinois assigns the 8-digit IL-PIN to our eligible population. The IL-PIN is the taxpayer's alternative signature. Taxpayers must have their IL-PIN or one of the "shared secrets" on file with the department to complete the filing of their "online" return. Taxpayers are provided with their IL-PIN via their IL-1040 booklet or a postcard. If they do not receive a booklet or a postcard they may use our IL-PIN inquiry system located on our web site or call our Taxpayer Assistance Division to see if an IL-PIN has been assigned to them.

Taxpayers who are trying to obtain their IL-PIN from our web site or by calling our Taxpayer Assistance Division must supply their name, Social Security number and at least one of the following pieces of information:

- 9-digit zip code
- Drivers License number
- Illinois Identification number
- Prior year Adjusted Gross Income

We are asking developers of "online" software to allow the user to obtain their IL-PIN before they actually complete their IL-1040 online return. We are requesting that you program your software to:

- Explain the IL-PIN early on in the tax preparation process.
- Link to our IL-PIN inquiry system on our web site at:
      https://www.revenue.state.il.us/app/pini/servlet/PINInquiry
- Provide our Taxpayer Assistance telephone number – 1-800-732-8866 or 217-782-3336.

Illinois Consent to Disclosure

Online filing providers are required to include the following "Illinois Consent to Disclosure" in their PC Online Software Package.
It is imperative that it is clearly stated in the software package that the payment of a balance due and any fee associated with the payment process, is a separate transaction from the filing of the return and any fee associated with the filing.

Illinois Consent to Disclosure

Before transmitting your return to the "firmname" Electronic Filing Center and then to the Illinois Department of Revenue (IDOR), you must first read and authenticate the Illinois "Tax Return Signature/Consent to Disclosure" presented here . This is a legal statement authorizing "firmname" and the IDOR to process your return electronically.

Your Tax Return Signature:
"Under penalties of perjury, I declare that I have examined this return and, to the best of my knowledge and belief the information on my electronic IL-1040 return is true, correct, and complete. I consent that my return may be sent to IDOR by my online service provider (OLSP) and/or my transmitter sending my return to the IDOR. I also consent to the IDOR sending my OLSP and /or transmitter an acknowledgment of receipt of transmission and an indication of whether or not my return is accepted or rejected, and if rejected the reason(s) for the rejection.

I am signing this Tax Return Signature/Consent to Disclosure by entering the following information":

Primary IL-PIN __ __ __ __ __ __ __ __
Prior year Adjusted Gross Income, IL-1040 Line 1 _____
Primary Drivers License or Illinois Identification Number __ __ __ __ __ __ __ __ __ __ __ __ __
9 digit Zip Code __ __ __ __ __ __ __ __ __

Secondary IL-PIN __ __ __ __ __ __ __ __
Prior year Adjusted Gross Income, IL-1040 Line 1   _____
Secondary Drivers License or Illinois Identification Number __ __ __ __ __ __ __ __ __ __ __ __ __
9 digit Zip Code __ __ __ __ __ __ __ __ __

REFUND
> I consent that my refund may be directly deposited as designated below and declare that the RTN and DAN are correct. If I have filed a joint return, this is an irrevocable appointment of the other spouse as an agent to receive the refund.

BALANCE DUE
> I authorize the Illinois Department Of Revenue (IDOR) and its designated financial agent to initiate an ACH electronic funds withdrawal as designated in the electronic portion of my 2006 Illinois income tax return. I authorize the financial institutions involved in the processing of an electronic payment of taxes to receive confidential information necessary to answer inquiries and resolve issues related to the payment.

> I do not want direct deposit of my refund, or an electronic funds withdrawal (direct debit) of my balance due.

Credit Card
You may elect to pay the tax you owe by using your Credit Card. Note: the payment of a balance due and any fee associated with the payment process, is a separate transaction from the filing of the return and any fee associated with the filing.

See the web site address below for details on Electronic Payment Options available for your IL-1040:
> http://www.revenue.state.il.us/Individuals/index.htm
> *or*

Check or Money Order
Make your check or money order payable to the "Illinois Department of Revenue". Write your Social Security Number and your spouse's Social Security Number, if filing jointly, in the lower left corner of your payment. Mail your completed IL-1040-V and payment to:
Illinois Department Of Revenue
101 West Jefferson
Springfield IL   62726-0001

Online e-Filing

Web Site Link Agreement

The Illinois Department of Revenue will place a link from our web site to the provider's web site when the online provider completes our Web Site Link Agreement. For more information and to obtain the Web Site Link Agreement, please contact the Electronic Commerce Division at 217-524-4097.
